

Proposal Self and Group Assessment

Name:

Project Title:

Instructions: Please address the following elements by providing specific, concrete detail.

Challenges: What challenges did your group experience? How did you work through these issues?

Group dynamic: Describe how your team worked together. You might discuss meetings, other forms of group communication, and collaborative writing. This is also where you should address any imbalances in the distribution of work between group members.

Quality of information: Are you satisfied with the proposal? If you had more time, is there anything you would do differently?

Tools & Data: Are you satisfied with the data & tools plan your group came up with for your project? What do you anticipate being your greatest challenge with data & tools?

Overall project work plan: Are you satisfied with the plan of work your group has devised? Why or why not?

Support: What support do you think you'll need to complete the project you've proposed? What can I do to best support your project development?
